Dear Don,

Thank you for providing the technology workshop for our Educational Leadership classes on March 12, 2011. Your own experiences with the electronic portfolio as well as your technical expertise have helped other students become more proficient and confident within this system. We have heard from many students how valuable the session was and they appreciated your direct manner of answering their own specific questions.

Thank you again for all your time both preparing and presenting that day. A three hour presentation requires much work and is duly acknowledged. Your sharing was appreciated by all.

Sincerely,

Dr. Greg K. Gibbs  
Educational Leadership Program Chair

Dr. Darlene McDonough  
Educational Leadership Assistant Professor
